In this Guide, you’ll find tons of (sometimes repetitive - but done so to satisfy nearly every gamer’s needs) information. Included here you’ll find:

1. As Scheduled MLB Schedule
2. As Scheduled AL Schedule
3. As Scheduled NL Schedule
4. Each MLB Team’s As Scheduled Schedule
5. As Played MLB Schedule
6. As Played AL Schedule
7. As Played NL Schedule
8. Each MLB Team’s As Played Schedule
9. As Played MLB Lineups
10. As Played AL Lineups
11. As Played NL Lineups
12. Each MLB Team’s As Played Lineups
13. Player career stats entering season
14. Each MLB Team’s Player Substitution Patterns
15. Each MLB Team’s Relief Appearance Data
16. Each MLB Team’s Pinch Hitter Appearance Data
17. Each MLB Team’s Pinch Runner Appearance Data
18. Each MLB Team’s Defensive Replacement Data

Also included with this Guide is another PDF of Player Appearance Grids for this season. A couple of bits of info on the Player Appearance Grids. They currently do not have transactions overlayed on them (except in the forthcoming Gold editions). However, there are many resources already on the internet for transactions. Also, when reading them, uppercase indicates a player started. Lowercase indicates substitutions made by that player.

The "Pinch Hitter Details", "Pinch Runner Details", "Relief Pitcher Details" and "Defensive Replacement Details" sections can be used to use relief pitchers and/or pinch hitters/pinch runners and also defensive replacements in the same/similar/order that the teams actually did to get a more realistic replay. Obviously, the realism depth to which a replayer goes is up to him or her. The "Player Substitution Patterns" use the following criteria: Early Substitution is prior to the 6th inning. Late Substitution is after the 6th inning. Tight games are tied or 1 +/- run games. Close games are 2 or 3 +/- run games. Big are 4 or more +/- run games.

A note about 1918-1955: All of the Guides and Grids are based on play-by-play data for 1956+. For 1948-1955, some of the data is based on box score data. Also, Ultimate Replay Guides for pre-1947 seasons are based on box score data, not play-by-play data, and some data is derived from incomplete information. Information for opposing pitcher handedness is not currently available using box score data. Inning of substitutions is sometimes not available. Game scores at the substitution point is based on the score at the beginning of a half inning (if inning is known). Defensive replacement details shows the starter at the defensive position as the replaced player. This will sometimes cause some discrepancies in the ‘Substitution Patterns’ versus the following ‘Details’ sections.

To purchase other years from 1918-2010+, visit http://baseball.ron-bernier.com/ . If you have questions or problems with this Guide, please visit http://forums.delphiforums.com/extrainnings/messages and post in the "RONBO’s Ultimate Replay Guides" folder, or email me at baseballsimresearch@ron-bernier.com . Thanks!

I hope everything in here is accurate (not only my code, but also the Retrosheet data this is based on). As always:
